

HELIAN

LED Lighting Solution Provider

WELCOME
TO HELIAN

HELIAN

Shenzhen Helian Electronics Co.,Ltd (HLLED) is a high-technology enterprise established in 2007 Aiming to provide cost-effective lighting solutions. As a leading LED lighting solutions provider, Helian is proud of its highly-trained and seasoned lighting experts, professional sales representatives, and skilled staff, who provide exceptional customer support and service. Over the past 16 years, we have developed LED strip lights and have expanded our business network into Europe, America, Russia, and other parts of the world. Our producing area is over 20000 m² and 500 employees specializing in OEM integration and more than owns a strong competitive team with much spirit of team work, which also process a sense of social responsibility.

Our product lines include a full-range of surface, recessed, and pendant mounted linear LED fixtures for decorative and general lighting purposes, in addition to an unparalleled selection of high-quality components: LED linear light, LED aluminum profiles, LED cabinet light, LED flexible strips, LED neon light, LED lighting accessories, and different types of power-supplies and controls for low-voltage LED lighting. □Helian is committed to innovate its products to reflect the best and latest solid-state lighting technology as demand for LED lighting increases. Helian products have gained more than just patents, such as design recognition and functionality. As a manufacturer of customized LED lighting systems, Our company is well known for its strategic design mindset, which is widely used in airports, museums, libraries, residential, galleries, corridors, offices, reception areas, cinema halls, laboratories, entertainment facilities, hotels, exhibition halls, theme venues, schools and colleges, indoors and outdoors, clinics and hospitals, parking lots with sidewalks, as well as other venues.

With an unwavering commitment to quality and full-service project management and support, our goal is to deliver robust and reliable lighting systems that are simple to install, affordable, and most importantly—realize the vision of the homeowner, designer, or builder-alike.

We passed ISO14001:2015, ISO 9001:2015 version international quality administration certification successively, and our series products are certified by UL, CE, RoHS, product safety certifications and so on. Our story is one of impressive evolution and establishing a relationship of trust with our customers. The reputation of the company is forged thanks to each quality project realized in collaboration with our agents. We are proud to develop products on which our collaborator can count on for maximum performance and built with quality materials for years of durability. To meet every customer's needs, Helian continuously develops innovative products based on solid technical knowledge. It is our vision to provide beautiful LED strip lighting to every corner of the world. Everyone has the right to live in a beautiful environment with beautiful lighting. Keeping our vision in mind, we strive to offer everyone the best LED Lighting at fair prices. Discover the advantages of partnering with Helian by contacting us today!

Product System

As a forerunner of linear lighting, keeps exploring and expanding the definition and boundary of linear lighting. At present, its products contain various categories and forms of light source and luminaire, as listed below, in order to provide designers building spatial light environments with perfect linear lighting solutions.

1 LED Linear Light

LED linear light source adopts high quality, high brightness driver, which has good heat dissipation performance. The lamp body adopts aluminum alloy with high thermal conductivity and good thermal conductivity. It is widely used in shopping center, business building, office building, industry and corridor, etc.

2 LED Strip Light

LED Strip Light are available in a variety of options including power, color, CCT, CRI, and more. It passed CE, ROHS, UL and other certifications, applying to indoor and outdoor lighting, furniture, vehicle, advertisement and other supporting usages.

LED Neon Light

LED Neon Light, is made by adopting dualcolor silicone integrated extrusion shaping process, and its protection grade reaches up to IP67, it has the characteristics of good protection performance, outstanding weather resistance, resistance to corrosive gases, dust proof, uniform lighting, etc. Applying to indoor and outdoor molding decoration, building outlines, city night scenes illuminating and so forth for the sake of the effect of decorative lighting.

3

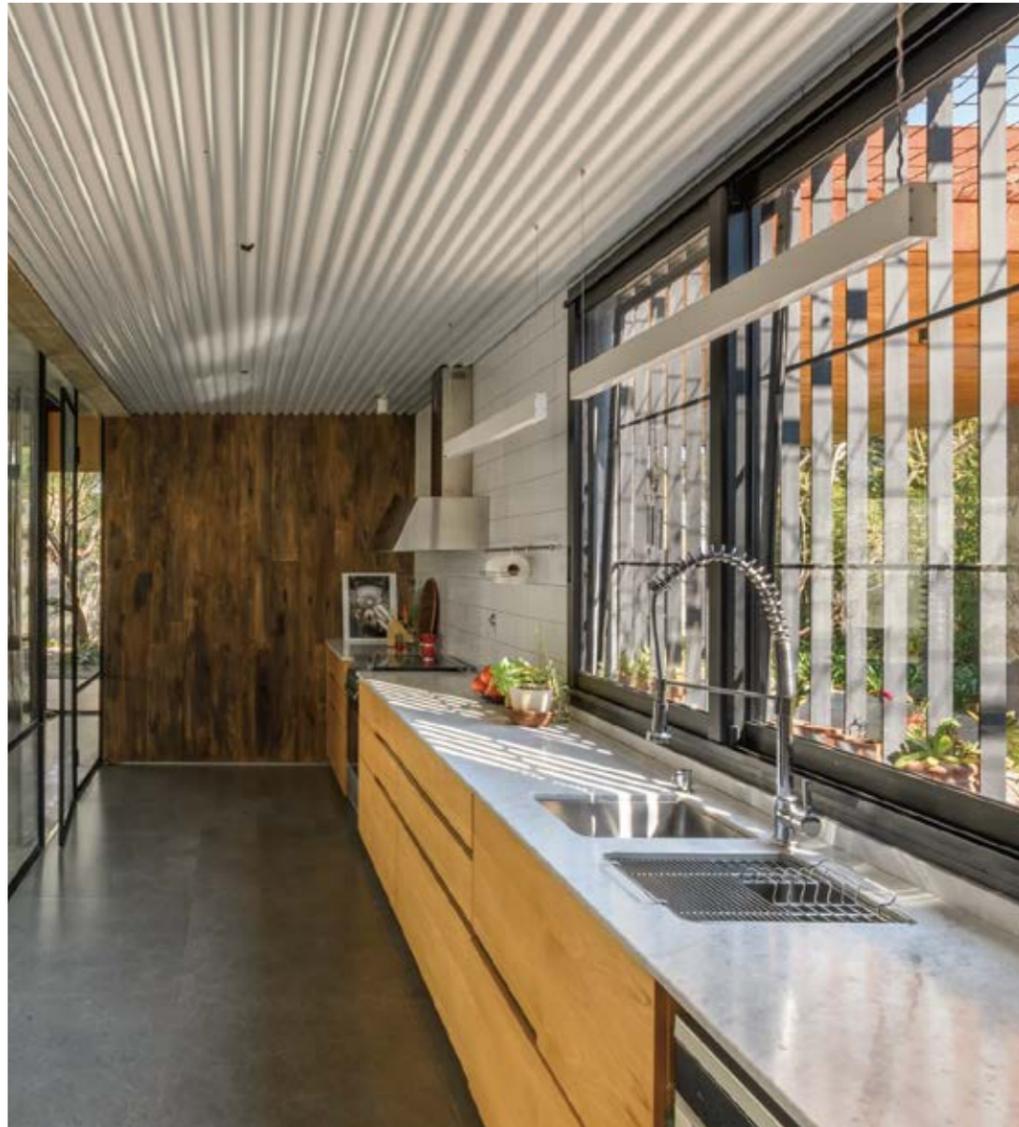

1

LED LINEAR LIGHT

1. Professional appearance design, simple and elegant.
2. High quality, energy-efficient LED Lighting for environmental protection.
3. LED linear light source adopts high brightness driver, which has good heat dissipation performance.

Applicable for indoor family

Applicable for commercial supermarket

Applicable for building front

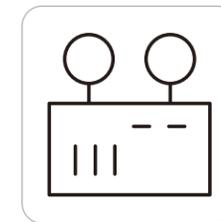

Applicable for art gallery, museum, etc

FUNCTION DESCRIPTION:

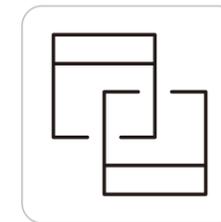

1. With emergency function
2. Dimmable
3. Choice of connecting different parts
4. Anti-glare

Low power consumption, long life, good heat dissipation, energy saving and environmental protection, emergency response.

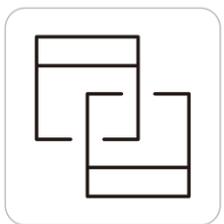

Dimming method: 2.4G dimming /0-10V dimming/DALI dimming.

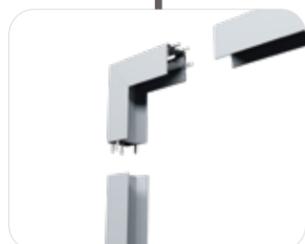

Lamps can be freely combined with a variety of combinations. Easy to install and can be spliced.

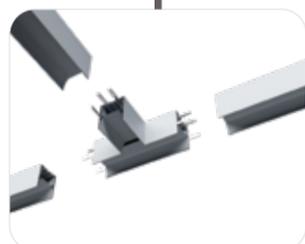

Professional anti-glare grille reflector, anti-glare value $UGR < 16$ / $UGR < 19$, comfortable light, protect our eyes.

- This linear LED luminaire features a minimalist aesthetic design at its core with sleek lines that are compatible with various styles.
- Constructed from selected high-quality aluminum profiles, it is paired with energy-efficient LED light sources, offering high luminance and low power consumption.
- It comes with adjustable light angles and multiple cover options, catering to requirements ranging from narrow-angle spot lighting to wide-angle flood lighting.
- Suitable for multiple venues such as offices, exhibition halls and residences, it fulfills both basic lighting and ambiance creation functions.

- Modular triangular linear lighting offer infinite possibilities.
- The module joints are precisely designed, with a smooth surface and no protrusions, and smooth overall lines.
- The shell is made of anodized matte aluminum alloy, which has a delicate touch and is anti-fingerprint. Meanwhile, the matte surface softens the light to avoid glare.
- The power supply is built-in and the wiring is of the PUSH-IN shrapnel type. It is easy to install, disassemble, and maintain.
- Frosted metal texture and smooth minimalist lines are suitable for high-end commercial scenes, minimalist home spaces, public cultural places, etc

SMARTPUZZLE QUICKSNAP TRACK

Flexible installation

1. Expansible with standard connectors, adjustable position of the shape light, and capable of various splicing combinations according to creativity.
2. Even if the ceiling is uneven, the lamp can be installed horizontally, and the shape remains neat.
3. Optimized center of gravity distribution ensures stable and non-shaking installation, eliminating the risk of deviation.
4. Reduced number of holes, simplified wiring, doubled installation efficiency, saving time and effort.

Tuya APP

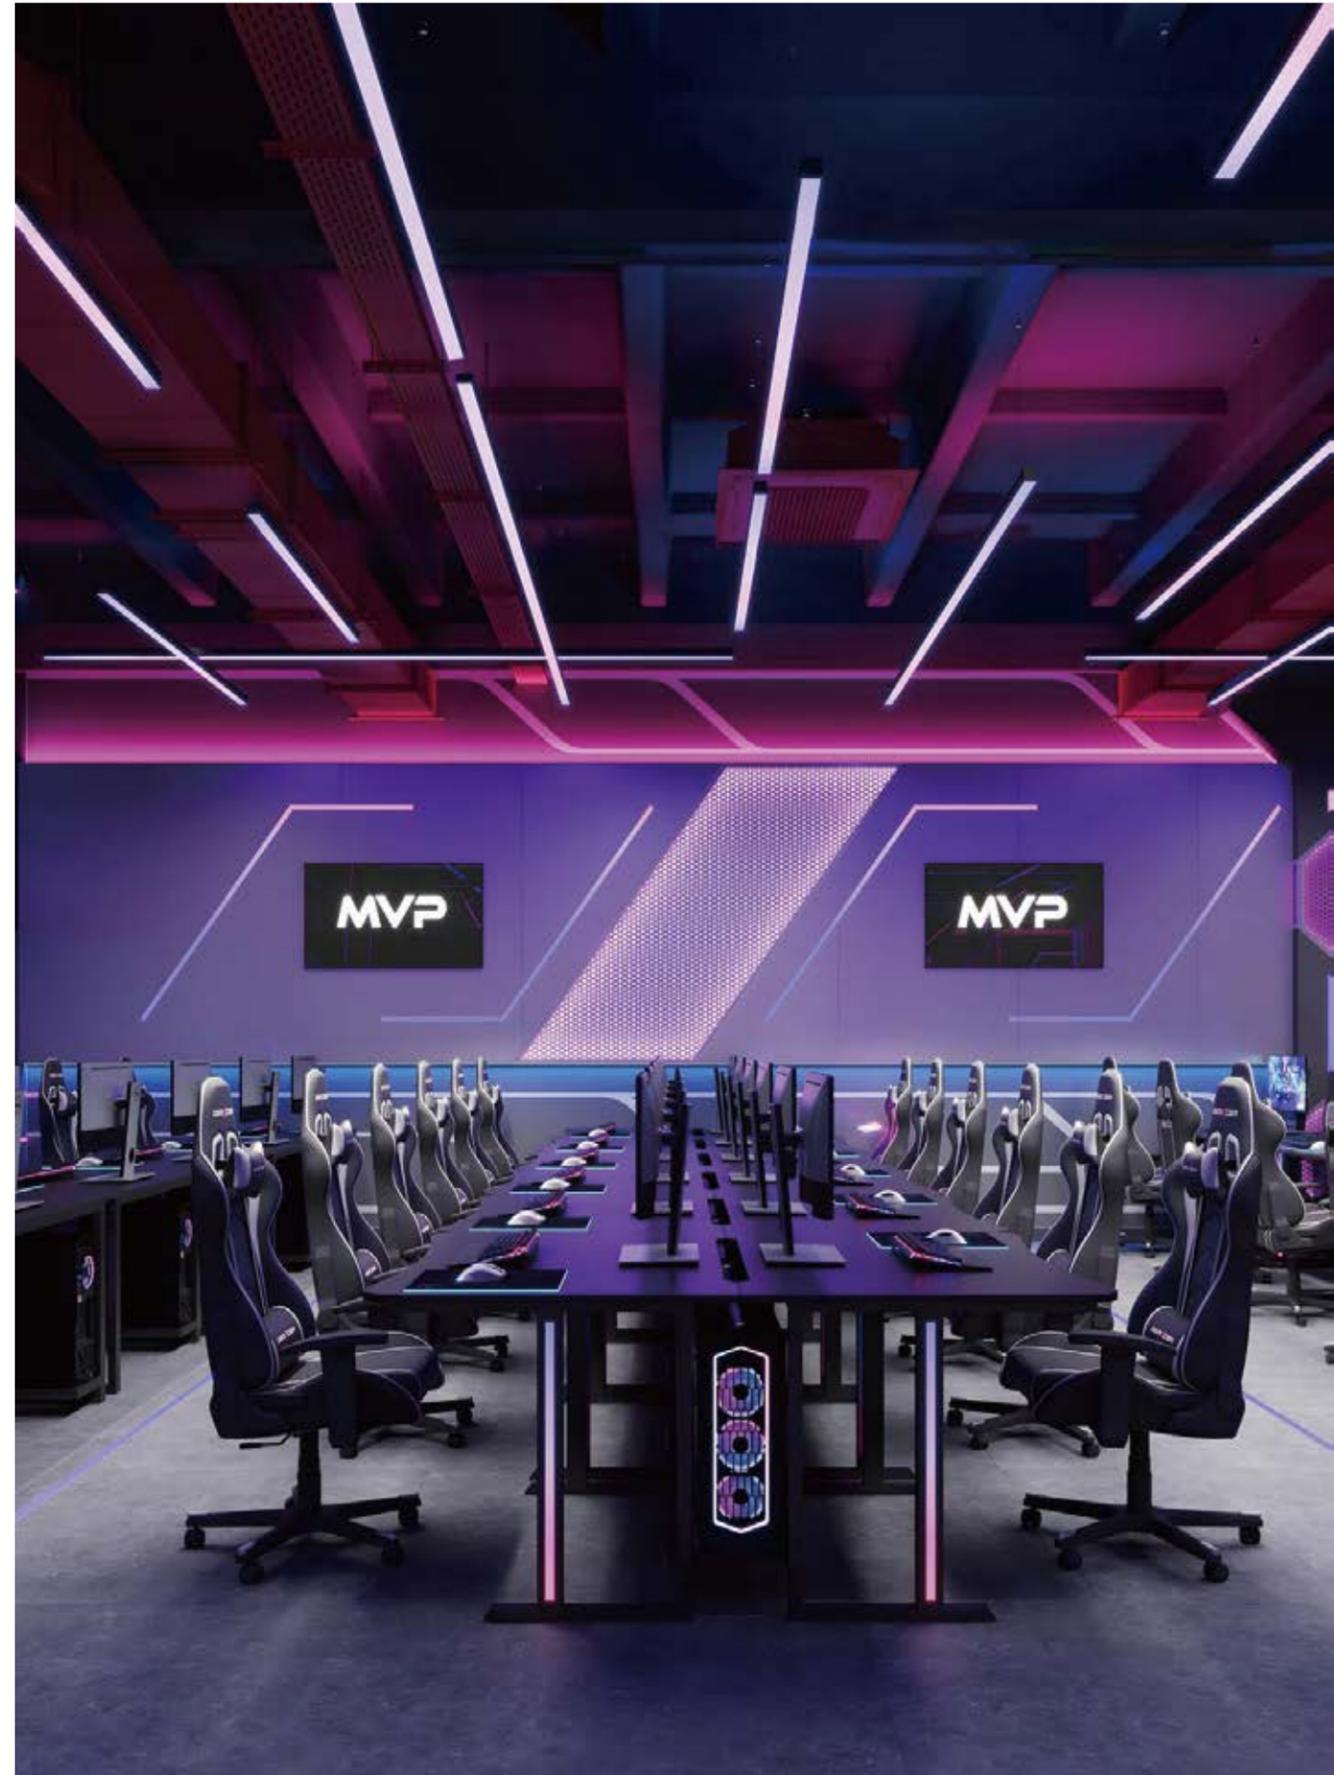

Optional Remote Control

--Intelligent Control: Supports multiple control methods, including APP control (Tuya ecosystem), remote control (2.4G WIFI + Bluetooth), and smart speaker voice control.

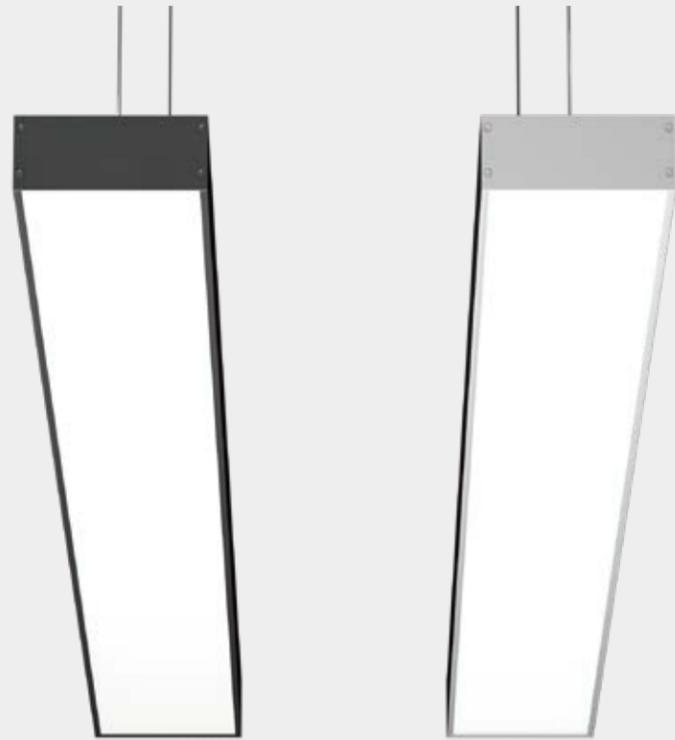

The light color can be set according to personal preferences, and DIY scene modes are also available. It also comes with additional functions such as music sync and timing.

--Scene Application: Adopts an RGB + CCT dual-color temperature combination, which meets the needs of most scenarios such as office, home, and commercial use. Additionally, the RGB ambient lighting offers vivid colors to create a festive atmosphere.

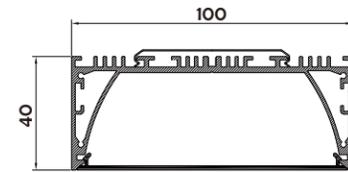

HL-CA049-L12

- Professional appearance design, simple and elegant.
- High quality, energy-efficient LED Lighting for environmental protection.
- Anodized aluminum profile with good heat sink.
- External power supply, no flicker.
- Optional cover for the lamp (PC diffuser cover / prism cover).
- Professional anti-glare prism diffusion plate, anti-glare value UGR < 19, light comfortable and soft, protect eyes.
- Application: offices, conference rooms, supermarkets, schools, home lighting and so on.

LED NEON LIGHT

- High light transmittance, environmental protection grade silicone material, integrated extrusion molding process.
- Unique optical light distribution structure design, uniform lighting surface and no shadow.
- Excellent toughness, simple and stylish appearance, delicate and unique.

Product Series

HELLIAN silicone neon light strips are divided into six series: "Top-lighting", "Side-lighting", "3D Series", "360° Lighting", "Embedded Neon Lights", "High-voltage Neon Lights" and "Wall Washer Lights".

Customers can choose the most suitable products according to factors such as the application site, functional requirements, project nature, and cost budget.

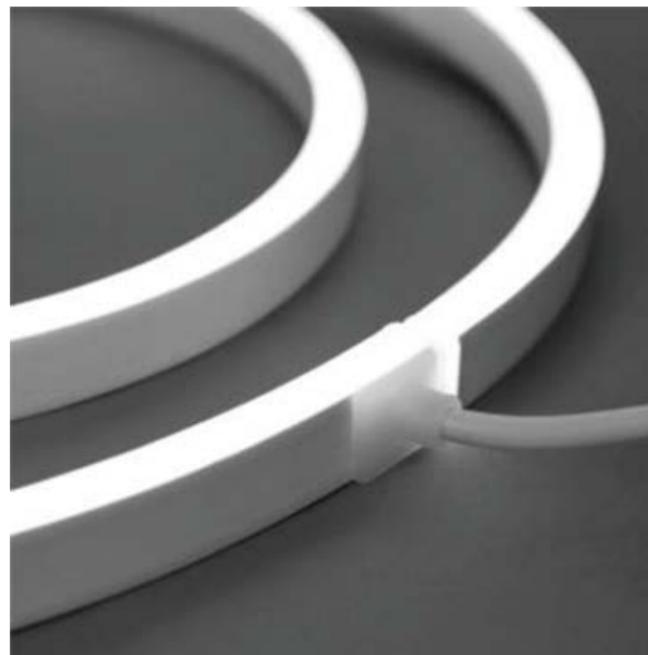

← Top Emitting Series

Top emitting series neon flex adopt environmental silicone material, up to IP67 protection level, even if used outdoor for a long time, the surface will not turn yellow easily. High light transmission, can be used for sign lighting, indoor and outdoor decorative lighting and architecture contour lighting molding. After "9 major tests", it is resistant to hydrochloric acid, acid and alkali corrosion, flame retardant, UV resistant, reliable and guaranteed quality.

Side Emitting Series →

Side emitting series neon adopt unique optical structure design, uniform light and no shadow. Side-emitting design can be used for building outline, indoor and outdoor decorative lighting and other scenes. IP67 high protection level, suitable for swimming pool underwater lighting. Passed UL, CE, Rohs and other international environmental protection and reliability certifications, product quality is trustworthy.

360° Lighting Series →

360° lighting series adopt innovative technology, 360° light emission, no dark area. Flexible material, match with different application solution to meet any molding needs. Can be applied in straight line, circular, curved, and other special shape. It is the best partner for your space design and artistic molding.

← 3D Series

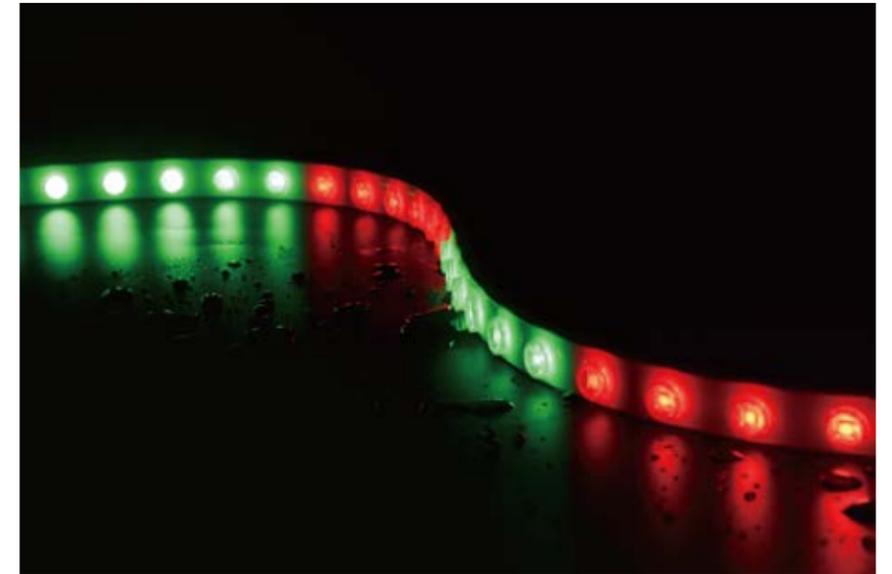

3D series neon adopt flexible silicone material, strong plasticity, combined with top-emitting, side-emitting two type lighting surfaces, and the matched installation solution, meets the needs of multiple lighting. Silicone coextrusion process, IP67 protection level, no fear of indoor and outdoor humid environments, meets the lighting needs of indoor decoration, landscape lighting, architectural curtain walls, building outline and other scenes.

← Embedded Neon Lights

The embedded neon lights feature a unique flanging and closing design, which can avoid gaps caused by oversized or uneven grooves. They can perfectly blend with architectural spaces, walls, household cabinets and so on, achieving the effect of seeing the light but not the lights themselves, and realizing a simple and fashionable decorative style.

Wall Washer Light →

The wall washer light is a kind of lighting fixture that makes the light wash over the wall like water. It mainly achieves the effect of beautifying the appearance of buildings by reasonably designing the optics and evenly projecting light onto the facades of buildings. Its optical parameters such as the luminous angle and the beam angle can be adjusted according to actual needs. Generally, it uses LEDs as the light source, which features energy conservation and high luminous efficiency.

High-voltage Neon Lights →

High - voltage neon lights can produce high brightness, have good long - distance lighting effects, and are rich and vivid in colors. They are suitable for outdoor large - scale advertising signs, theme park entrance signs, guiding signs, bars, dance halls and other places.

Featuring high substitutability, can achieve various lighting effects such as white light, RGB and digital toning, and it can replace the neon tube, guardrail tube, rainbow tube and so on for signage lighting/architectural lighting/landscape lighting.

Top Emitting Series

High thermal conductivity, the thermal conductivity of silicone is 0.27W/MK, better than the "0.14W/MK" of PVC, and the strip features longer effective heat dissipation life.

High thermal conductivity

Good protective performance, the main body of product and standard outlet end cap can be used in the environment up to IP67 standard, and can pass the laboratory test standards of IP67.

Good protective performance

Outstanding weather resistance, without embrittlement, deformation, softening and aging. And using in the environment between -20°C ~ +45°C, it can operate normally resisting extremely cold and high heat.

Outstanding weather resistance

Performance Feature

Resistance to corrosive gases

Resistance to corrosive gases, include chlorine, sulfur dioxide, hydrogen sulfide, nitrogen dioxide and so on, the silicone neon strip with long lifespan can be used for severe environment.

Avoid dust into the neon strip, and featuring reliable sealing, up to IP6X, beautiful appearance, wide range of applications and long life span.

Dust proof

Uniform Lighting, dot-free, direct-view surface, used for highly reflective material, featuring a glossy environment free from dazzling.

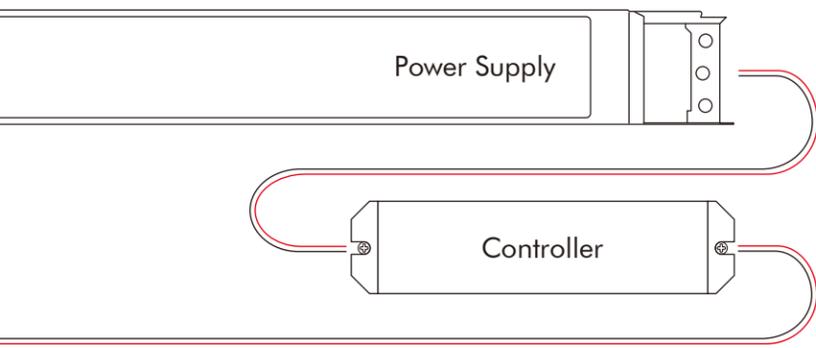

Uniform Lighting

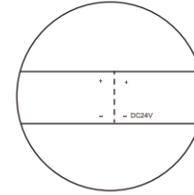

Resistance to corrosion

Featuring resistance to corrosion, the silicone can resist corrosion of normal salt, alkali and acid, can be used for special environments such as beach, yacht, chemical industry, petroleum, mine and laboratory.

Top Emitting Series

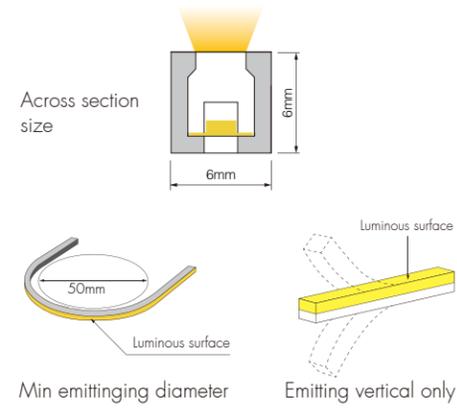

Top emitting series neon flex adopt environmental silicone material, up to IP67 protection level, even if used outdoor for a long time, and the surface will not turn yellow easily. High light transmission, can be used for sign lighting, indoor and outdoor decorative lighting and architecture contour lighting molding.

HL-N0606V24-CXX

• DIMENSION STRUCTURE

• ACCESSORIES OPTIONS

- Silicone led neon light TOP 0606 IP67, DC24V, is emitting direction vertically and front cable entry with radius of 25mm and a cross section size: 6mm*6mm/(W*H).
- It is IP67 protection, never yellow, UV resistant, salt water resistant and high temperature resistant via opal silicone coating.
- Uniform luminance and dot free will bring the most excellent performance for indoor & outdoor application.
- The product has constant voltage and constant current version.
- Can connect 5 meters in series with one power supply without voltage drop, and can save the installation cost better.

LUMINAIRE PARAMETERS

Size	W6*H6mm
Voltage	DC24V
Power	6w/m

Embedded Neon Lights

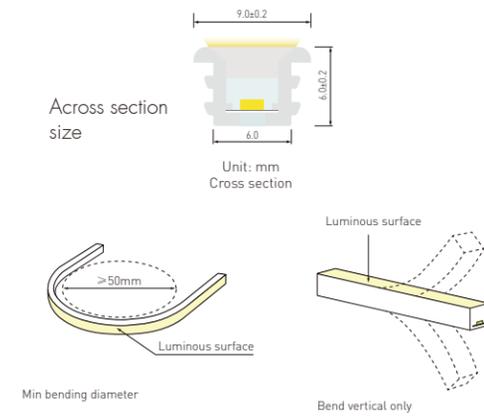

The embedded neon lights feature a unique flanging and closing design, which can avoid gaps caused by oversized or uneven grooves. They can perfectly blend with architectural spaces, walls, household cabinets and so on, achieving the effect of seeing the light but not the lights themselves, and realizing a simple and fashionable decorative style.

Flexible LED Wall Washer

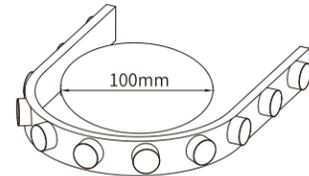

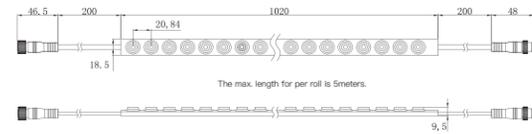

With its unique appearance design, excellent lighting performance and a wide range of application scenarios, wall washing lamps have become an indispensable part of the modern lighting field.

HL-WL2Q48V24-C30

• DIMENSION STRUCTURE

• ACCESSORIES OPTIONS

- Adopting TPU material, it's resistant to yellowing, high temperature, corrosion, weak acid and alkali, and has great flexibility.
- PU glue is used for filling and sealing, so that it has strong adhesion, good durability and high reliability.
- It can replace the traditional hard wall washer light or LED strip. It's small in size, light in weight, flexible and easy to install.
- Various beam angles (30°, 45°, 60°, 20*45°) are available for different applications.
- With low voltage DC24V, higher safety factor

- Only One Bin
- IP67 Waterproof Grade
- LM80 LM80 Standard
- 3-Step MacAdam
- Resistant to solvents

- Material: TPU, resistant to yellowing, high temperature, corrosion, weak acid, and alkali. It is also flexible.
- Can replace traditional hard wall-washing lights or LED light bars. It is small, lightweight, and bendable. It is easy to install and flexible to apply.
- Multiple beam angles are available (15°, 30°, 45°, 15*60°), suitable for different environments and places.
- Uses high-quality waterproof RGB light sources and RGBW light sources, with high brightness, low power consumption, and good consistency.
- Full-color, with various color-changing effects available when used with a control system.
- Compatible with DMX512(1990) protocol, automatic addressing and encoding, using RS485 signal trunk and signal differential transmission method.
- Has strong anti-interference ability and long transmission distance.

HL-WL1616V24-CXX

• DIMENSION STRUCTURE

• ACCESSORIES OPTIONS

- Optical lens emits light to achieve different lighting needs
- Good flexibility, bendable shape
- Two-tone silicon extrusion, cut mark can be seen on the back, easy to cut and use
- Using module lens+silicon design, Can be top bend or side bend
- High and low temperature resistance, can maintain a soft state at minus 25 degrees to 45 degrees
- Salt ,acid and alkali resistance, Anti-UV , fire proof and IP 65 water proof
