

NEON LIGHT
CATALOGUE

LED Neon Light

LED Neon Light, is made by adopting dualcolor silicone integrated extrusion shaping process, and its protection grade reaches up to IP67, it has the characteristics of good protection performance, outstanding weather resistance, resistance to corrosive gases, dust proof, uniform lighting, etc. Applying to indoor and outdoor molding decoration, building outlines, city night scenes illuminating and so forth for the sake of the effect of decorative lighting.

- High light transmittance, environmental protection grade silicone material, integrated extrusion molding process.
- Unique optical light distribution structure design, uniform lighting surface and no shadow.
- Excellent toughness, simple and stylish appearance, delicate and unique.

Featuring high substitutability, can achieve various lighting effects such as white light, RGB and digital toning, and it can replace the neon tube, guardrailtube, rainbow tube and so on for signage lighting/architectural lighting/landscape lighting.

Multiple light colors

High thermal conductivity, the thermal conductivity of silicone is 0.27W/MK, better than the "0.14W/MK" of PVC, and the strip features longer effective heat dissipation life.

High thermal conductivity

Good protective performance, the main body of product and standard outlet end cap can be used in the environment up to IP67 standard, and can pass the laboratory test standards of IP67.

Good protective performance

Outstanding weather resistance, without embrittlement, deformation, softening and aging. And using in the environment between -20°C ~ +45°C, it can operate normally resisting extremely cold and high heat.

Outstanding weather resistance

Performance Feature

Resistance to corrosive gases

Resistance to corrosive gases, include chlorine, sulfur dioxide, hydrogen sulfide, nitrogen dioxide and so on, the silicone neon strip with long lifespan can be used for severe environment.

Avoid dust into the neon strip, and featuring reliable sealing, up to IP6X, beautiful appearance, wide range of applications and long life span.

Dust proof

Uniform Lighting, dot-free, direct-view surface, used for highly reflective material, featuring a glossy environment free from dazzling.

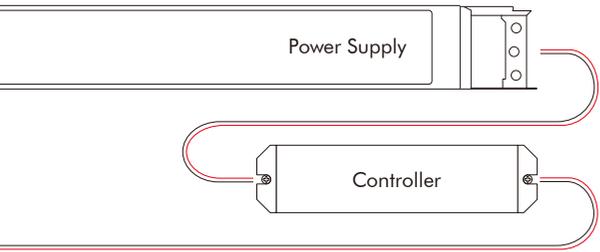

Uniform Lighting

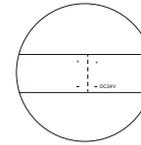

Resistance to corrosion

Featuring resistance to corrosion, the silicone can resist corrosion of normal salt, alkali and acid, can be used for special environments such as beach, yacht, chemical industry, petroleum, mine and laboratory.

Silicone led neon light side 0408IP67, DC24V, is bending direction horizontally and front cable entry. with radius of 15mm and across section size: 4mm*8mm(W*H). It is IP67 protection, never yellow, UV resistant, saltwater resistant and high temperature resistant via opal silicone coating. Uniform luminance and dot free will bring the most excellent performance for indoor & outdoor application. The product has constant voltage and constant current version. 5 years warranty.

HL-N1212HV24-Cxx

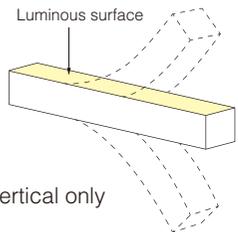

- High light transmittance, environmental protection grade silicone material, integrated extrusion molding process.
- Unique optical light distribution structure design, uniform lighting surface and no shadow.
- IP67 protection level, salt solution resistance, acids & alkalis, corrosive gases, fire and UV.
- Excellent toughness, simple and stylish appearance, delicate and unique.
- 5 years warranty.

HL-N1212V24-Cxx

Silicone Ledline Flex Side1212 IP67, DC24V, has bending direction vertically and Front / Side / Bottom Cable Entry.with radius of 100mm (3.94") and across section size:12mm*12mm/0.47"*0.47" (W*H). It is IP67 protection, never yellow, UV resistant, saltwater resistant and high temperature resistant via opal silicone coating.Uniform luminance and dot free will bring the most excellent performance for indoor& outdoor application.The product has constant voltage and constant current version. Constant current version can connect 19meters in series with one power supply and don't have voltage drop ,and can save the installation cost better.Unique end cap design , can install quickly and easily to meet the different length' s request, No welding and dealing with waterproof. years warranty.

HL-DN1612V24-CXX

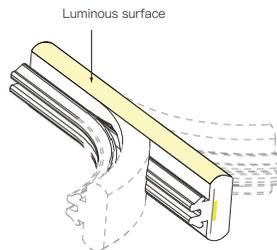

- It is made of Dow Chemical SILASTIC™ ET-7021 silicone rubber, which provides high transparency and high strength.
- Unique two-sided luminous structure design, can be used as a variety of scene atmosphere lighting;
- Excellent toughness, unique and simple appearance, perfect integration into each scene;
- Environment-friendly silicone material, integrated extrusion molding process;
- IP65 protection grade salt solution resistance, acids & alkalis and UV resistance;
- 5 years warranty.

Silicone Ledline Flex Top1615 IP67, DC24V, has bending direction vertically and Front / Side / Bottom Cable Entry. with radius of 100mm (5.9") and across section size: 16mm*15mm/0.63"*0.59"(W*H). It is IP67 protection, never yellow, UV resistant, saltwater resistant and high temperature resistant via opal silicone coating. Uniform luminance and dot free will bring the most excellent performance for indoor & outdoor application. The product has constant voltage and constant current version. Constant current version can connect 27 meters in series with one power supply and don't have voltage drop, and can save the installation cost better. Unique end cap design, can install quickly and easily to meet the different length's request, No welding and dealing with waterproof. 5 years warranty.

HL-N1615V24IP68

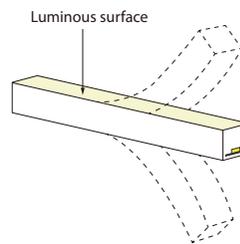

- It is made of Dow Chemical SILASTIC™ ET-7021 silicone rubber, which provides high transparency and high strength.
 - Environmental protection grade silicone material, integrated extrusion molding process.
 - Unique optical light distribution structure design, uniform lighting surface and no shadow.
 - IP68 protection level, salt solution resistance, acids & alkalis and UV resistance.
- Chlorination resistant, it can be used in underwater environment , such as swimming pool;
- Excellent toughness, simple and stylish appearance, delicate and unique
 - 5 years warranty.

HL-NS1617-IP68

- Advanced sealing tech, integrated molding process for IP68 protection and 5m underwater depth.
- Made from chlorine-resistant silicone formula, Chlorine resistance 5PPM, has better corrosion resistance, ideal for swimming pools.
- Unique light distribution structure provides uniform illumination with no transparent window, ensuring no light leakage.
- Available in a smooth mattc finish for superior dust resistance.
- 3 years warranty, long-life LED > 50,000 hrs.

HL-NR30V24-Cxx

- Compared with traditional neon lights, it has good flexibility, simple and fashionable appearance, and is exquisite and unique.
- Unique optical structure design, 360° luminous uniformity without shadow
- High light transmittance, environmentally friendly silicone material, silicone sleeve extrusion molding process, IP65 protection level;
- Salt solution resistance, acid and alkali corrosion resistance, flame retardant resistance, UV resistance
- Working Temperature: -25~60C / 0C~60C;
- 5 years warranty.

HL-N0817V24-Cxx

- High light transmittance, environmental protection grade silicone material, integrated extrusion molding process.
- Unique optical light distribution structure design, uniform lighting surface and no shadow.
- IP67 protection level, salt solution resistance, acids & alkalis, corrosive gases, fire and UV
- Excellent toughness, simple and stylish appearance, delicate and unique
- 5 years warrant

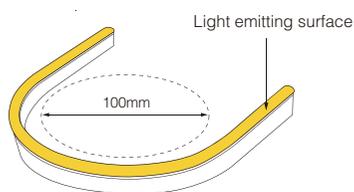

Electrical Parameter

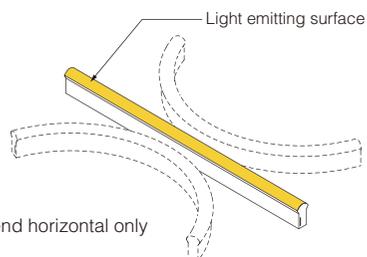

Voltage	DC24V
LED PIN temperature	Max. 65°C
Storage Temperature	-25°C ~ 60°C
Ambient temperature	Min.-25°C, Max (Table below)
CRI	>90

Specification

Power	5w/m	10w/m
Efficacy(lm/w)@4000K	34.8lm/w	34lm/w
Max ambient temperature	50°C	45°C

Min bending diameter

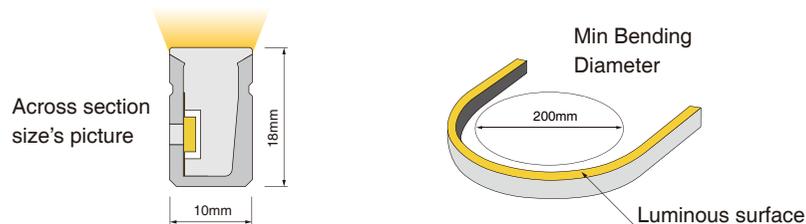

Bend horizontal only

HL-N1018V24-Cxx

Silicone Ledline Flex Side1018 IP67, DC24V, has bending direction vertically and Front / Side / Bottom Cable Entry. with radius of 100mm and across section size: 10mm*18mm(W*H). It is IP67 protection, never yellow, UV resistant, saltwater resistant and high temperature resistant via opal silicone coating. Uniform luminance and dot free will bring the most excellent performance for indoor & outdoor application. The product has constant voltage and constant current version. Constant current version can connect 25meters in series with one power supply and don't have voltage drop, and can save the installation cost better. Unique end cap design, can install quickly and easily to meet the different length's request, No welding and dealing with waterproof.

· 5 years warrant

HL-NS1220AC

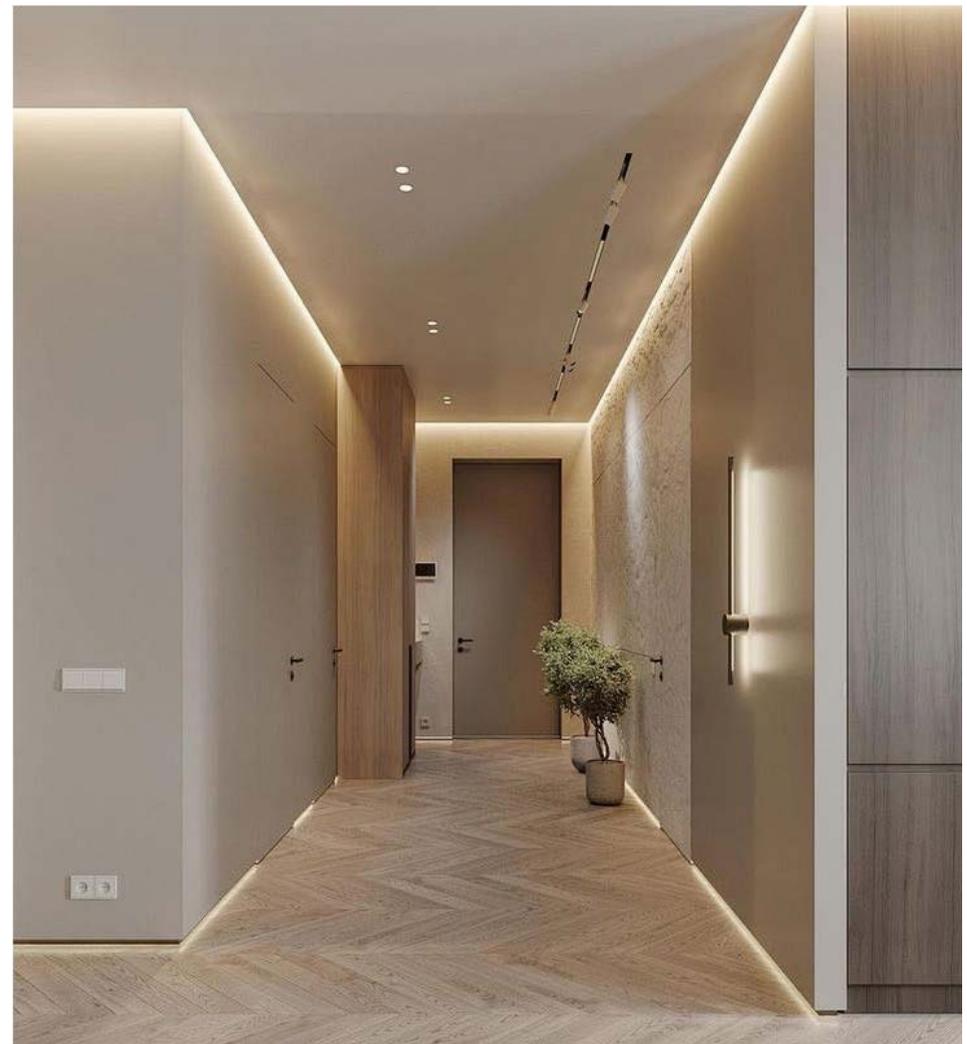

- It is made of Dow Chemical SILASTIC™ ET-7021 silicone rubber, which provides high transparency and high strength.
- Environmental protection grade silicone material, integrated extrusion molding process.
- Unique optical light distribution structure design, uniform lighting surface and no shadow.
- IP67 protection level, salt solution resistance, acids & alkalis, corrosive gases, fire and UV
- Excellent toughness, simple and stylish appearance, delicate and unique
- 3 years warranty, working life ≥ 30000 hours;
